

MEMORANDUM

Date: June 7, 2020

To: TLRC Residents and Employees

From: R Kevin McFeely, President & CEO

Re: TLRC Staff COVID-19 Test Results Information

Testing of TLRC employed and contract staff for COVID-19 began last week. As of today, out of 291 employees tested, we have received 284 test results back. All have reported negative except for one. This employee is not a direct care provider and has been informed of the test result. Per Tacoma-Pierce County Health Department guidelines, this employee has been removed from the schedule effective immediately.

As was the case with the residents who tested positive, this employee was asymptomatic. We will continue the protocols already in place (taking temperatures, requiring the use of PPE, limiting access to other parts of the TLRC campus). Based on the number of residents and employees on our campus any given day (in excess of 350), it is apparent these protocols have been effective in preventing COVID-19 from taking hold on a massive scale and spreading. I am proud of the TLRC team and the diligence they have followed in implementing and maintaining these actions and having the small number of cases reported, again **all asymptomatic**, is a true testament to their commitment to protecting the health and safety of all of our residents. We are truly blessed!

We will continue to update you as the situation changes. As always, please do not hesitate to reach out to Brita Carpenter or myself should you have any questions.

Thank you.
