

MEMORANDUM

Date: December 18, 2020

To: TLRC Residents, Family Members and Employees

From: R Kevin McFeely, President & CEO

Re: Today's COVID-19 Case Update

Based on the test results that came in today, we received notice that five (5) Health Center employees have tested positive for COVID. The good news is that there are no new cases of residents testing positive for COVID to report to you!

I am aware you most likely have heard the news that the number of available vaccines has now been reduced by 40%. In speaking with industry professionals and governmental officials, we have been assured this is not the case and this information has unfortunately caused an unnecessary amount of angst. We are still on track to receive the vaccine soon. We still do not have a specific date for the arrival of the vaccine at TLRC but again, will share that information with you once we receive it.

Do not hesitate to reach out to us if you need any additional information or have any questions.

Thank you.
