

MEMORANDUM

Date: December 24, 2020

To: TLRC Residents, Family Members and Employees

From: R Kevin McFeely, President & CEO

Re: Today's COVID-19 Case Update

Based on the test results that came in, we received notice that twenty-eight (28) new Health Center residents have tested positive for COVID. There are no new employee positive tests to report.

As you can imagine, this is a very challenging time for everyone. Brita and I spoke today with a reporter about our frustration with not receiving a definitive date to start vaccinating our residents and staff. I truly hope that by bringing this issue to the public, pressure will be placed upon CVS and Walgreens to move forward with getting us started. We are looking at other options and again, once we have a definitive date, you will be notified.

In the meantime, we continue to follow established protocols and appreciate all that our staff are doing to keep our residents healthy throughout this outbreak. Their dedication is inspirational!

Do not hesitate to reach out to us if you need any additional information or have any questions.

Thank you.
