

MEMORANDUM

Date: December 8, 2020

To: TLRC Residents, Family Members and Employees

From: R Kevin McFeely, President & CEO

Re: Additional COVID-19 Cases

Today we conducted COVID Rapid Tests on six (6) of our Health Center residents as they were experiencing respiratory symptoms. All of the Rapid Tests came back positive. We will follow-up with Polymerase Chain Reaction (PCR) COVID test per CDC guidelines as the Rapid Tests have demonstrated some inaccuracies and the PCR test is much more accurate. However, in an abundance of caution, we have isolated these 6 residents and will keep our staff in their respective assigned areas to limit the potential for spreading the virus.

We will remain vigilant with all protocols, which includes the use of Personal Protective Equipment (PPE) in order to keep our residents and employees safe. Your continued compliance with our protocols is appreciated and we will work as quickly as possible to safely restore admissions and visitations.

As always, you will be updated as the situation changes. Thank you for your continued support and understanding.
