

MEMORANDUM

Date: December 10, 2020

To: TLRC Residents, Family Members and Employees

From: R Kevin McFeely, President & CEO

Re: Today's COVID-19 Case Update

We are continuing to receive staff COVID test results and of the many we have received, only one staff test came back positive. This employee is not working and will follow established protocols before being allowed to return to work. We currently have 11 residents who are experiencing respiratory symptoms and are awaiting COVID test results for them. As is required, we will notify you if these cases are deemed positive for COVID.

This is certainly a tough time for everyone, and we understand the anxiety that goes along with reporting positive cases. Please be assured we are remaining vigilant with all mandated protocols, including the use of Personal Protective Equipment (PPE) in order to keep our residents and employees safe and limit the spread of the virus. Your continued compliance with our protocols is appreciated and we will work as quickly as possible to safely restore admissions and visitations.

Thank you for your continued support and understanding.
