

MEMORANDUM

Date: January 1, 2021

To: TLRC Residents, Family Members and Employees

From: R Kevin McFeely, President & CEO

Re: TLRC Resident COVID Vaccine Update

I am pleased to announce to you we have partnered with Consonus Pharmacy to offer three COVID vaccine clinics on site at TLRC to our residents and staff members. The first clinic will be held this Sunday, January 3rd and the remaining two will be held on January 24th and February 14th.

Based on observed reactions to the vaccine, the Tacoma/Pierce County Health Department has recommended we do not vaccinate those people who have recently been diagnosed with COVID until our second clinic date, January 24th. This also applies to those residents being monitored at this time for exposure to COVID. However, all Assisted Living, North Ridge, Apartment and Six-Plex residents are eligible to sign up for January 3rd clinic if they so desire.

We will be offering the Pfizer vaccine, which is a two-step, three weeks apart vaccine. If you are planning to take the vaccine, please keep in mind in order to receive the full dose, you must receive your first dose no later than January 24th.

TLRC staff members will be coming to the apartments and Six-Plexes later today to obtain your consent for the vaccine. We apologize for the intrusion on your holiday, but in order for you to obtain the vaccine on Sunday, we need to turn in the consent forms to the pharmacy by 11:00 a.m. tomorrow morning.

Please keep in mind once you receive the vaccine, you will need to remain at the vaccine site for 15 minutes afterwards for staff to monitor you and make sure you are tolerating the vaccine initially. I will send out information about times and location for the vaccines later today.

Thank you.
