Re: COVID Update

As you are aware, we are currently operating under COVID restrictions related to Health Center admissions and visitations. It was our hope to be released from these restrictions as of tomorrow but unfortunately that date has been pushed back to August 27th.

However, I have received word that due to hospital occupancy being at or above capacity, the Local Health Jurisdictions have been advised by the State Department of Health to allow communities such as **eliseo** to begin admitting people to the Health Center if they are ready and have a safety plan in place. We are ready and have a safety plan developed to begin admissions and visitations. We have reached out to our Local Health Jurisdiction Officer and are awaiting word from her about this. Once we hear, I will send out another notice with the date admissions and visitations can begin occurring.

Thank you for your patience and understanding as we continue to navigate through the ever-changing guidelines of COVID.
