

## MEMORANDUM

Date: July 26, 2022

To: **eliseo** Residents, Family Members and Employees

From: R Kevin McFeely, President & CEO

Re: COVID Update

Sadly, I must inform you that COVID is spreading once again. As of today, we are experiencing the following number of COVID cases across the **eliseo** campus: four (4) residents in the Health Center, nine (9) residents in Assisted Living, three (3) residents in the Apartments and four (4) Health Center employees.

As per CDC guidelines, DOH regulations and **eliseo** protocols, these residents have been isolated until no new symptoms have presented themselves and test negative for COVID. The employees have been removed from the schedule and will return to work when they test negative and no new symptoms present themselves.

It is imperative you wear your masks when in any of the buildings on the **eliseo** campus and when you are with others outside. We also strongly encourage you to wear your masks when leaving the campus in order to minimize your risk for obtaining COVID. If you need any additional information or have any questions, please do not hesitate to contact any of our Department Directors.

Thank you.
